Launch X431 PRO 3

Diagnostic functions of X431 series include reading DTCs, clearing DTCs, reading/recording & graphing multiple data streams, actuation tests and an extensive list of special functions across American, Asian and European vehicles.

X431 PRO 3 communicates with vehicle systems through a Bluetooth connection between the DBSCar connector and an intelligent mobile terminal.

X431 PRO 3 takes advantage of wireless internet and can share maintenance data and case library, provide instant maintenance information, and build public and private maintenance social circles, thus leading to a wide car diagnostic community for an easier user experience.

Product Features:

- OS: Android Operating System
- Case: Rubberised protective sleeve
- CPU: Huawei Hi-Silicon K3V2 Quad core 1.2 GHz
- Battery: 6600mAh lithium polymer rechargeable battery
- Standby time: subject to usage & environment.
- Extension memory card: 32G Micro SD(TF) card supported
- Memory: 1GB
- Storage capacity: 8GB
- LCD: 10.1 inch
- LCD resolution: 1280 x 800
- Touch screen: 10 points IPS Capacitive
- Cameras: 3.2 mega pixel rear & 0.3 mega pixel front
- Wi-Fi: enabled
- Bluetooth: enabled
- Working temperature: 0°C - 55°C
- Storage temperature: -5°C - 70°C

DBSCAR Connector Parameter:

- Working voltage: 9 - 15V
- Average working current: approx. 35mA
- Standby current: approx. 25mA
- Working temperature: 0°C to 55°C
- Storage temperature: -5°C to 70°C
