

How to save & print A4 reports on X431 PRO, PRO3 & PAD2

The X431 range of tools are designed to work with the Launch mini wireless printer, however you can also use your own wireless printer. The below guide will show you how to save, share & print A4 reports to your wireless printer.

Before you do this you need to install the relevant printer app for your printer, instructions for this can be found on our website:

<https://www.launchtech.co.uk/documents/X431%20PRO%20wireless%20printer%20setup.pdf>

Health Report will scan all vehicle modules and give you a status list for each modules condition. Also known as “Global Test” or “Full Scan”

System Scan will give you a list of what modules are fitted on the particular vehicle.

System Selection will let you manually enter whatever module you wish to diagnose.

(In this guide we will click on “Health Report” as an example)

Select Test Item	
DEMO V14.80 > Health Report	
System Name	Result
Scanning System...	67%
IMM(Immobilizer)	Scanning...
BCM(Body Control Module)	Fault 3
SRS(Supplemental Inflatable Restraint System)	Fault 3
ABS(Anti-lock Braking System)	Fault 2
TCM(Transmission Control Module)	Fault 3
ECM(Engine Control Module)	Fault 4

Pause

End Session

Print
