

VSP-600

USB Video Scope

PROFESSIONAL VISUAL INSPECTION IN HARD-TO-REACH AREAS

The VSP-600 enables fast, accurate inspection of hard-to-reach vehicle areas, from engine bays to internal cavities, helping technicians quickly identify hidden faults.

Its 5.5 mm camera and 800 mm semi-flexible cable provide easy access to tight spaces, reducing the need for dismantling and saving workshop time. High-resolution image and video capture improves diagnosis, supports clear reporting, and reduces guesswork. Overall, it boosts efficiency, improves accuracy, and supports quicker, more confident repair decisions.

ADDITIONAL INFORMATION AT A GLANCE

Compact camera head (Ø 5.5 mm) for very narrow spaces

6-level LED illumination for optimal visibility

Fast saving and playback of photos and videos

HD resolution of 1280 × 720 pixels for a clear image

800 mm flexible cable for hard-to-reach areas

ALL ADVANTAGES AT A GLANCE

- Precise inspection without disassembly (5.5 mm camera)
- HD photo and video documentation at the push of a button
- Angled adapters (35°, 45°, 60°) for hard-to-see areas
- 800 mm semi-flexible cable for maximum access
- Versatile use in automotive and industrial applications
